Annals of Clinical and Analytical Medicine publishes original studies and current medical issues across all branches of medicine. The journal includes retrospective, prospective, and experimental studies, interesting case reports, invited reviews, letters to the editor, original images, brief reports, as well as news related to congresses, courses, and seminars. The journal is published monthly. The publisher does not provide any guarantees regarding the description of commercial products and does not accept responsibility for related claims. The author(s) undertake full scientific responsibility for the manuscript.
